INTERESTING PANAMA CANAL FACTS

This canal was first undertaken by a French company in 1878. The company company went into bankruptcy after raising over \$250,000,000 to spend on the work. In 1899 Congress appointed an Isthmian Canal Commission to investigate the matter. In 1902 Congress authorized the purchase of all property of the French Panama Canal Company for a sum not to exceed \$40,-000,000. This purchase was made. In 1903 Panama revolted from Columbia and became a separate republic. From the Republic of Panama the United States government purchased for \$10,000,000 a strip of land ten miles extending from ocean to ocean. An annual rental of \$250,000 is paid to Panama for this strip of land.

The port cities of Colon and Panama and their harbors are not included in the land grant made the United States. So the port cities of the United States at the canal are Cristobal on the Atlantic and Ancon on the Pacific cities.

The canal is forty-two feet deep and varies from width of a lock to 1,000 feet wide. Its length from ocean to ocean is about fifty miles. The proposed fortifications of the canal will cost \$12,500,000. The total estimated cost of the canal is \$400,000,000. As many as 38,000 people have been employed on the work at one time.

the work at one time.

Col. George W. Goethals
was appointed as the first
civil governor for the Panama canal zone, on Jan.
27, 1914.

NOTE.—In 1904 Maryland castsone Republican and seven Democratic votes.
In 1912 California cast 11 Progressive votes and two Democratic votes. The highest Progressive elector received 174 more than the highest Democratic electors. Oklahoma had no Progressive ticket, tho it was generally understood that the Republican electors favored Roosevelt. There were no Republican electors on the official ballot in South Dakota.
